

“ In this industry, freight has to be on time: holdups cost you time and money. But with Vawdrey and their service van, they are on time, every time, as promised.”

**Chris O’Keeffe, General Manager – Logistics 1**

# Around the clock mobile service for your Vawdrey trailers

With Vawdrey's mobile service van looking after the Melbourne metro and country Victorian areas 24:7, help is only a phone call away.

Keeping equipment in prime condition and on the road working is an essential requirement for any modern road transport operator.

The mobile service van comes fully equipped, sporting its own power generators, electric and gas welding equipment, electrical testing equipment and a range of axle, suspension and brake components used on Vawdrey trailers.

And even if the job involves outside supplied equipment, the van has a range of reference folders from various other equipment suppliers, which the service technicians can refer to.

The van is also able to contact these suppliers, even after hours, so any technical problems related to their equipment can be given attention ASAP.

Summoning the van is simple. Just call Vawdrey's main office number - (03) 9797 3700 – and select option two on the phone menu and you'll be put straight through to Vawdrey's service van mobile phone.
